

fact sheet...

What is Elluminate?

*Elluminate is a web-conferencing tool that allows **Hardman Benefit Plans** to conduct employee meetings LIVE over the Internet.*

Minimum system requirements

- **Processor** - Pentium II 266 MHz processor or faster
- **Operating System** - Windows 95/98/MNE/NT/200/NT
- **Memory** - 64 megabytes of RAM
- **Storage Space** - 20 megabytes of available disk space on your hard drive
- **Audio** - Soundcard with speakers and microphone or headset
- **Connection** - 28.8 kbps or higher
- **Internet Browser** - Internet Explorer 4.0+ or Netscape 4.7

'Real-Time' Multimedia Tool Enables Online Collaboration, Education, Meetings

Elluminate was built specifically for live, multimedia collaboration. Hardman Benefit Plans can educate, conduct employee meetings and collaborate in real-time over the Internet without the need for travel. Elluminate has a long list of features that allows our employee meetings more effective and enjoyable.

How Elluminate helps us save you time and money . . .

- **Two-Way Audio (Voice-over-IP)** - Crystal-clear audio over the Internet without teleconferencing. Use your computer's built-in microphone and speakers or plug in an external headset and microphone. No more long-distance charges!
- **Bandwidth Efficiency** - Collaborate in real time, regardless of Internet connection speeds, knowing that everyone sees and hears the same thing at the same time.
- **Application Sharing, Interactive Whiteboards** – We can share PowerPoint presentations or anything on our desktop with participants. You or your participants can edit or add content via moderator-grantable mouse controls.
- **Record** – Saves the audio and video of a meeting or training session as a file for viewing later. The recorded meeting file can be emailed or set as a link on your website or Employee Benefit Center.
- **Direct Text Messaging** - Instant public and private messages to one participant, the entire group, or a selected group of participants.
- **Quiz Manager** - Allows the moderator to conduct interactive quizzes and surveys, load and store tests, and collect results.
- **Meeting Moderator stays in control** - Permission-granting, attendee list, and sequenced hand-raising features.
